Application and use test of 9570_Selfie Project Anti-Pimple Leopard Stars.

Duration of the survey: 11 – 25.08.2025

On behalf of Maurisse, a recommended scientific and research unit conducted application and use test of the 9570_Selfie Project Anti-Pimple Leopard Stars product.

The expert center, renowned for its advanced research facilities and outstanding specialists, conducted a meticulous analysis covering various aspects of the product's use. The study was conducted on the basis of the Good Clinical Practice standard defined by ICH Topic E6 'Note for Guidance and good clinical practice', the Helsinki Declaration (1964, WMA) and subsequent updates.

This study involved a carefully selected group of probationers, meticulously measuring the product's effectiveness. Test subjects, who used the product as intended and according to the package instructions, reported rapid and significant improvements in skin condition. These results highlight the high quality and reliability of the tested solution. Thanks to our cooperation with a respected research institution, we are confident that our pimple patches are reliable and meet the highest quality standards.

The excellent application test results confirmed the efficacy and safety of the tested product, providing a solid basis for its further promotion and distribution in the market. The test involved applying the patch to acne-affected areas for a specified period. Results showed
